

Making Money Using DirectMATCHES - Training Fast Track

My personal recommendation to get started quickly and for you to earn maximum profit immediately:

Executive membership is the only way to go if you are looking to earn some serious cash flow...below is a brief background of the basics to making this grow.

There are so many other sites (literally thousands) and countless ways to invite people in.

Read the compensation plan once you sign up in your back office and try to get on the company training calls because they are so informative and will speed up your learning curve!

I should have devoted more time to them in the beginning and I want you to learn from my mistakes.

This is a great business and it is really working for me, but it does take time and work.

It is changing the lives of my personally sponsored members and mine as well.

You have no idea how this business has helped me through some very hard times!

Have faith in this and yourself and I'll help you whenever you want and need it!

 This just Works! 

Here are the bare bones basics to build your DirectMATCHES business.

What you're going to read is how you can build a down line in this business that will bring you a wonderful income.

The list of sites is over a year old, but **they still work!** 😊

With 79 million people starting an online business in the next 3-5 years, you won't run out of prospects.

New ads are posted almost every second of everyday!

Did you know there is a new person joining a home-based business every 5 seconds in the world and the majority of them don't have a clue as to what they are doing, but **YOU WILL**.

You just have to work and try to keep your dreams alive!💡

This takes time and it is not a get rich quick scheme, but you can have a substantial income doing it.

My personal mentor used to do this when he was a commercial truck driver.

There is no need to spend any money except your monthly subscription fee, which you can cover by sponsoring only two executives per month!

It's that simple!

Here's another recommendation:

1. Save the following classified sites to your favorites.
2. You may want to create a new folder and mark it as "Classifieds" to save space.
3. You are going to use these sites to find business opportunity ads and contact these people with the reply marketing letters.

These are the same sites I have been using to bring in free members! 😬

If any of these links are broken I apologize, just do a Google search for the sites and you can find a working link. Please don't blast me with emails because I don't have the time to monitor if they are working on a daily basis. Thank you, Raymond.

Pay attention to these ads!

1. Always remember user names and e-mail addresses.
2. You do not want to send a bunch of letters to the same person because that is spamming and that is bad.
3. Also look for dates ads were placed!

Here's what I place in the subject line or in the advertisers "Ad Header".

Letters to send example. Do not change format! Use as Directed!

Obviously you want to put your contact info in there to replace mine, but use the same format for success.

First Letter To Send Example below:

Hello (insert person's name if known),

I am requesting more info on your business ad and how it works. Is an investment required?

Look forward to hearing more.

Raymond Sahley

raymond@freeleadshq.com

Obviously you want to put your contact info in there where mine is.

Now just sit and wait on that ad and move onto the next.
When they send you a reply **AND THEY WILL**, you will
then send this second letter.

Second Letter Details:

Again change my contact info into yours.
Copy and save each letter individually.
You want to do this so you can pull them up fast and copy and paste!

If you send out 100 of the 1st letters a day, your business will grow!
This should take about an hour as you get faster.

Remember in order to see success you must be persistent and patient.

It will happen, but you need to take action and keep taking action until you see
results.

Then you will be so pumped up it wont be work anymore.

You will be enjoying yourself and making money!

All you are doing is going fishing everyday!
The classified sites are your fishing holes, the letters are the bait, and your
mouse is the pole!
